

At School

In the classroom

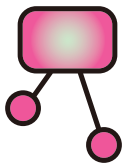

Is there an IWB (Interactive Whiteboard) in your classroom?

Need a projector mount to go with it?

Key Question – what kind of projector do you have?

What kind of Projector?	Recommended Projector Mount	Product Name	Colour	Mounting Surface
Short Throw	2C141	Teach IT Wall	White	Wall above IWB
Standard Throw	2C101 2C110	Hang IT Extend IT	Black	Higher ceilings
Standard Throw	2C102 2C111	Hang IT Extend IT	White	Higher ceilings
Standard Throw	2C101	Hang IT	Black	Lower ceilings
Standard Throw	2C101	Hang IT	White	Lower ceilings

Are you looking for a roller screen and projector bracket for your classroom?

For screens - we recommend our great value See IT and Watch IT screens.

Two things to work out –

- What size screen is required?
- Which format?

The SEE IT Multifformat Screens are perfect for when you are showing a variety of media, in different sizes and different formats.

The WATCH IT 4:3 VF format screens match perfectly to a 4:3 projector.

Product Name	Product Code	Size	Format
Watch IT	2C732	84"	4:3
Watch IT	2C733	100"	4:3
See IT	2C701	1800 x 1500mm	Multifformat
See IT	2C702	1800 x 1800mm	Multifformat
See IT	2C703	2100 x 2100mm	Multifformat

For projector mounts, the key question is where will you mount the projector, and this will be determined by your projector's throw distance.

See table above for help in choosing.
